

E.C. Manning Provincial Park Thursday October 25th, 2018

Trail and Backcountry Campground Conditions Report— updated every second Thursday throughout the fall.

Synopsis for October 25th – Is this it? The end of hiking season? Maybe, or maybe you can still pick a few more days from the next couple of weeks to enjoy the Park's lower elevation trails before the snow really starts to fly. The higher trails, such as the Heather and Mt. Frosty, are beginning to accumulate snow in spots, and you can feel that ski season will be here soon.

A number of projects have recently finished, or are nearing completion. We're currently rerouting the start of the Little Muddy Trail, near the Resort, to avoid the small section that has recently been reclaimed by the Similkameen River. Further up Gibson Pass Road, we're replacing bridge structures on the South Gibson Trail to ensure safe early season cross country skiing. Out on the Grainger Creek trail we've now replaced over 13 bridge and boardwalk structures, and near we're undertaking a fuel reduction project to protect the Resort area in the event of a wildfire, just west of the cabins.

Backcountry Camping fee in effect. The fee for camping in the backcountry in Manning Park is \$5.00 per person, per night. Backcountry camping permits can be purchased at <https://discovercamping.ca/Backcountry/E.C.Manning?Map> up to two weeks prior to your visit. This permit is not a reservation for a specific campsite in a backcountry camp. You must retain your permit while camping. Day use hiking does not require a permit.

Important Considerations

- **Caution:** Unpredictable weather may occur at any time of year. Use local Hope or Princeton weather as a source for planning your trip, and prepare accordingly. There is limited cell service in the Park; your phone WILL NOT WORK in most locations.
- To help prevent conflict with wildlife, and for the respect of other Park users, **dogs must be on a leash at all times, and picked up after.**
- To protect the Park's ecological values, please stay on trails at all times.

Help with determining which trail you should hike:

- Trail difficulty is based on the length of the trail section, change in elevation and trail type for the average Park visitor.
- Trail type is defined as:
 - **Type I:** 1.5 to 2.5 m wide, paved, crushed gravel or board walk, less than 10% grade.
 - **Type II:** 1.5 m wide, gravel surfacing in wet areas, up to 15% grade.
 - **Type III:** 0.5 m wide, grade greater than 15%
 - **Type IV:** up to 0.3 m wide, lightly used wilderness trail, tread as worn not grubbed out, infrequent maintenance.

	Estimated Distance one-way (KM)	Estimated time one-way (hours)	Estimated Elevation gained (meters)	Trail type	Trail Condition	COMMENTS/ Trail safety Information
Easy Trails						
Beaver Pond Trail	500m	10 min	Very little	Type II	Good condition, windfall has been cut.	Often good wildlife viewing
Paintbrush Trail	1.5 km	20 min	Very little	Type III	Good condition, windfall has been cut.	
Rein Orchid Trail	600 m	15 min	Very little	Type II	Good condition, windfall has been cut.	
Rhododendron Flats Trail	1 km	20 min	40m	Type II	Good condition, windfall has been cut.	
Strawberry Flats Trail (From Strawberry Flats to Gibson Pass Ski Hill)	4.5 km	2 hrs	125m	Type I	Good condition, windfall has been cut.	
Sumallo Grove Trail	1 km	30 min	Very little	Type II	Good condition, windfall has been cut.	<p>Note – Skagit Valley Provincial Park (Accessed from Sumallo Grove) is CLOSED as part of a broader area closure due to hazards resulting from this summer's wildfire.</p>
Twenty Minute Lake Trail	1 km	20 min	10m	Type II	Good condition, windfall has been cut.	
Little Muddy Trail	5km	1 hour	100m	Type 1	<p>Good condition with the exception of a washout near the Resort intersection</p>	 <p>Work is currently underway rerouting as section of trail to mitigate flooding and erosion issues</p>

	Estimated Distance one-way (KM)	Estimated time one-way (hours)	Estimated Elevation gained (meters)	Trail type	Trail Condition	COMMENTS/ Trail safety Information
East Similkameen Trail (From Windy Joe Trail to Castle Creek)	4.7 km	2 hrs	75	Type II & III	Trail has been cleared of windfall and is open to horse, bike and foot traffic. A few wet areas.	Bridge over Castle Creek CLOSED at 7 km accessing Monument 78 trail. Trail has not been cleared 200m from Castle Creek.
